Penticton Herald

PENTICTON, B.C., WEDNESDAY, DECEMBER 8, 1954

Provincial Library
Periodicals Dept.
Parliament Bldg.

5c Copy 2 Sections—16 Pages

The Weatherman Says . . .
Cloudy and mild today and
Thursday. Occasional showers
beginning towards evening—
Wednesday night, increasing
towards evening—Low to-
night and tomorrow at
Penticton 39 and 42.

THE BIGGEST ADDITION TO PENTICTON SPORT FACILITIES since the erection of the Memorial Arena, the Penticton Granite Club was officially opened this afternoon at two o'clock as Mayor Oscar Matson curled a rock down one of the four gleaming sheets. The mayor, complete with a colorful tartan scarf at his throat, is shown above taking a line on the button as two prominent curling organizers, Al Mather (left) and club president Jack McKay give a few pointers on the gentle art of guiding the stone. The first bonspiel in the club's tender infancy began following the opening ceremony. It is shaping up to be a top notch sporting feature as rinks from around the province battle to the wire this evening.

Herald Article Fires Drive To Remove Bridge Hazard

Building Figures Continue Upward Climb In November

Building continues apace in Penticton with value of building permits issued in November exceeding the value of permits issued in November of 1953 by \$37,149.

Without any extra-large size projects other than the new Hudson's Bay store here building over the year has far exceeded that of last year with permits valued at \$1,452,789 as against \$992,434.97 for the corresponding period of last year, an increase of \$460,355.

Last month building permits for 25 homes and five industrial premises were issued at a value of \$124,680.

"We're Not Here To Restrict Business"

"We are not here to restrict business," Alderman E. A. Titchmarsh declared in council Monday when moving that council inform the provincial department of highways that it had no objection to cross-overs being granted the Standard Oil Company on Westminster avenue.

The oil company had requested the department of highways for two 30 foot cross-overs leading to its property on the southwest corner of the Martin street lane, fronting on Westminster.

To provide the cross-overs would entail cutting the new concrete curb and removing a telephone pole, the department informed council in a letter asking, in effect, if it thought the cross-overs necessary.

Alderman Titchmarsh said, "If the provincial government wants to make Westminster a controlled access highway it is up to the government. Council is not here to restrict business—council has no objections to the cross-overs."

It was pointed out that no expense would be entailed by the city in providing the cross-overs.

Valley Drivers To Pay Less For Car Insurance In 1955

Car insurance will cost less for most Okanagan drivers in the coming year.

B.C. Underwriters' Association today announced overall reductions that will mean a drop of about eight percent in the Okanagan rating territory created last April.

The new rates will be effective as from January 1 next.

It has been confirmed that the preferred risk rating, moreover, will be extended to owner-operators under 25 years of age.

The Penticton Herald's front page of last Friday, December 3, has inspired city organizations to join in asking provincial highway authorities for removal of the traffic hazard, "that death-trap", the Ellis Creek Bridge on Main street, south.

On Monday Alderman F. C. Christian, suggested that City Council follow-up the "adequate story and pictures" published by The Herald detailing the hazards created by the too narrow bridge on a main highway by writing the minister of public works and enclosing copies of The Herald, asking that something be done about the "death-trap". "It is too narrow," Alderman Christian declared, "it is a death trap and The Herald did an adequate job of telling about it—let's write the minister and also send him copies of the paper."

Alderman Christian declared that the Penticton Board of Trade executive was in full agreement with the campaign and was prepared to add its voice. Alderman H. G. Garrioch then suggested that not only the Board of Trade but the Junior Chamber of Commerce, the parks board and every other civic organization conscious of the danger created by the bridge bottleneck should be invited to join in the demand for action "before it is too late".

Last Friday The Herald carried the story of a crash in which an elderly Okanagan Mission couple had a narrow escape from death when their late model car struck the bridge sidewalk barrier.

The Herald quoted ex-Alderman Wilson Hunt and Superintendent of Works E. R. Gayler both of whom condemned the bridge as too narrow and a serious traffic hazard.

The article was accompanied by pictures illustrating the hazards of a bridge much narrower than the highway approaches.

Council was in full agreement with the Herald article and will pursue the matter with other civic groups.

RCMP HERE TO ASK MORE MEN

Addition of two officers to the RCMP local detachment is expected to be asked for in the 1955 police contract, according to Mayor Oscar Matson.

His Worship informed council Monday that the police do not think the present ten-men force strong enough for the job of policing the city.

"I'm inclined to think it's inadequate too," said Mayor Matson, "especially when you consider it's a 24-hour-a-day job and men have got to have some time off—it doesn't leave many for round the clock policing."

District Meeting Of Jaycees Sunday

District meeting of the Junior Chamber of Commerce will be held December 12 aboard the SS Seamus commencing at 2:30 p.m., under chairmanship of Syd Hodge.

Penticton Jaycees will play host to units from Grand Forks and Oliver. Provincial president "Phil" Fillipelli of Trail and vice-president, Hal Dann, of Cloverdale will be present.

Guest speaker will be Dr. Joseph Rife of Chilliwack, international director, who recently returned from the international Jaycee conference held in Mexico.

Fire Department reports a quiet week, no fires since Nov. 30.

Mayor Ridges Every Effort To Hold Line On City Taxes

Every effort to "hold the line" regarding city taxes was pledged by Mayor Oscar Matson in a brief resume of civic business to about 60 taxpayers at the annual stewardship meeting last night.

Mayor Matson was chairman of the meeting which heard reports from aldermen as heads of various committees, school board and parks board chairmen and the seven candidates seeking aldermanic seats at the civic elections, Saturday.

"We neither reduced nor increased taxes in 1954," the mayor pointed out, "and while we can't promise a reduction next year I think we can promise there will be no increase."

Start Public Works Program Earlier

It was council's intention, he said, to start the public works program earlier next spring as a result of plans laid during the past few months.

Declaring himself a firm believer in the policy of building schools to keep pace with increased population, Mayor Matson also urged a vote of approval for the referendum which would enable the school board to borrow money for construction of an eight-room elementary school on Power street.

"The site may not be the finest but it is the best available," he concluded.

False Economy Cost City Money

Ex-Alderman Wilson Hunt, who resigned his seat this year because of ill health and pressure of business, declared the city had, in the past, suffered because of a false economy policy.

A system of sewers which could have been installed for \$125,000 had, because of this policy, eventually cost the city \$700,000.

Town planners forecast a population of 27,000 in 15 years' time, he continued, and the city must look forward to installing services that will go with this increase.

"The city must spend \$90,000

for an electrical system to meet future needs," said the former chairman of the electrical committee, "and half of this work is now done."

Alderman H. M. Geddes, seeking re-election, stressed the importance of completing the domestic water survey so that statistics would show how much water had been used, is being used, and will be needed in the future.

He surveyed the water situation as it exists today and passed on possible solutions for future years.

City's Debt Substantially Reduced

Alderman F. C. Christian, who is not seeking re-election, looked at accomplishments in 1954 inasmuch as they affected the finance department, of which he is chairman.

"The year 1954 has been a year in which the city's projects have been carried out on a pay as you go basis," said Alderman Christian, "the year 1954 should show an estimated reduction in the civic debt by about \$125,000." He concluded with a number of recommendations to be passed on to the incoming council.

As health committee chairman, Alderman H. G. Garrioch, spoke of completion of the last sewerage section during the year and expressed hope that within the

next two years another section will be completed east of the railway tracks.

He termed 1954 a "bad" year for insect control, and spoke of the need for a health centre and, in relation to safeguarding of health, said endeavors are being made to institute a meat inspection service.

As irrigation committee chairman, Alderman E. A. Titchmarsh, who is seeking the one year aldermanic seat, said that in the interests of the preservation of the fruit industry the city should install pumping equipment adequate for its present needs and future calculated needs and that gravity water for domestic purpose should be disregarded except

Municipal Ownership Of Summerland Rink Urged

SUMMERLAND—Advantages of municipal management of the Summerland rink were part of the explanation given ratepayers by Dr. James Marshall when he spoke to voters at the annual ratepayers' meeting, Dr. Marshall presented a brief in favor of a referendum to be voted upon Saturday in which voters will give an answer to the council's question as to whether a by-law should be presented for proposed purchase of the rink and installation of artificial ice at a cost of \$62,000.

In part he said, "The present rink association is supported by 192 bondholders with \$25,461 in paid up bonds. It is the duty of the management to make sufficient money from operation of the rink to pay interest on the bonds and set aside funds with which, eventually, to redeem them. Thus making money is a prime need for the successful operation of the rink. That is not the best basis for the operation of recreational facilities for our young people."

The Summerland Curling Club is an organization apart. It is (Continued on Page 3)

ADVANCE POLLS

Advance polls for civic voting will be held tomorrow and Friday at Jermyn avenue auditorium. Polls will be held from 12 noon to 3 p.m. Voting takes place at the auditorium Saturday from 8 a.m. to 8 p.m.

Heard Glowing Report Of Penticton; Wishes To Buy Home Here

"That's the kind of letter I like to get," commented Mayor Oscar Matson when he tabled a letter from Dr. A. E. Riddell of Tulsa, Okla., who wrote "I have heard such glowing reports of your city that I think I would like to buy a home there."

Dr. Riddell has in mind purchase of a bungalow with land, or a large lot.

... AND ITS ONLY EIGHTEEN MONTHS! Holding up the large, bullet-pierced ear of the 400-pound-dressed calf moose he shot at Mons Lake lodge last month is well-known hunting guide Mark Hugo, with fellow hunter Thorby Vopni, who was with him on the hunting trip. Mr. Hugo shot the moose November 18, but strung it up in the bush to freeze until he returned for it last Wednesday. Mons Lake is about 80 miles south-west of Williams Lake.

Gas Agreement To Be Further Studied

A committee representative of City Council, Board of Trade, and Junior Chamber of Commerce will be created to study the proposed natural gas franchise agreement between the city and the Inland Natural Gas Co. Ltd.

The committee was proposed by Alderman F. C. Christian in council meeting on Monday, after Mayor Oscar Matson disclosed that copies of the gas franchise agreements from Saskatoon and Lethbridge had been secured and were available for study.

Alderman Christian said that the Board of Trade was very interested in the proposed agreement, that he had read the Saskatoon agreement and thought it had teeth to it, and that the study of the proposed Penticton agreement and similar agreements, plus other available data, could be studied perhaps to advantage by a joint committee from council, board and the Junior Chamber.

Mayor Matson while praising Alderman Christian's argument in principle was at first loath to act in view of the committee set up by the Okanagan Valley Municipal Association to study the natural gas question in relation to the Okanagan valley as a whole.

"We more or less agreed to act as one," Mayor Matson said. "It was finally agreed that such a committee as proposed by Alderman Christian would not interfere with the work of the OVMA committee and could, in view of Penticton's longer concern with the matter, possibly provide guidance."

BOARD OF TRADE

Monthly meeting of Penticton Board of Trade will be held at the Hotel Prince Charles tonight commencing with a social half-hour at 6 p.m.

Members of Ratepayers' Association and Junior Chamber of Commerce have been invited to attend in order to hear candidates for civic office.

SORE PAW SKIPPY? Fern Carol Hughes, age eight, and her friendly two year old dog pose before the camera for the express purpose of bringing to your attention that the SPCA is organizing a local junior branch this evening in the Red Cross rooms and wants your support—especially the younger people. Education in responsibility toward animals is needed, says the SPCA.

Cats Not Poisoned - It's Distemper

Dozens of city and orchard cats stricken by death in recent weeks are victims of an epidemic of feline distemper, not poisoning.

Most folks don't miss much by living in the suburbs—except the lost main home.

as has been the opinion held by many, according to authoritative opinion here.

Enquiry into the number of cases of suspected poisoning has been prompted by the high mortality occurring after a few days' illness, often accompanied by repeated vomiting and diarrhea, giving the average layman all the impressions that the animal "has picked something up."

It is in reality the manifestation of the annual epizootic of feline distemper, an extremely infectious disease which may occur as either "infectious enteritis" or "snuffles." It is a different type of distemper than that

which affects dogs.

Apparently the gastric type is the one affecting local cats. Young cats are particularly susceptible and may be visibly ill for only one or two days, before they die and a very big percentage do not recover.

The disease is picked up usually from direct or indirect contact and within a few days there is dullness, loss of appetite, vomiting and gradual prostration until death ensues in considerable pain. Septic throat and ulcerated tongue are often complications.

For treatment to be effective it must be started early in the course of the disease and at

though sulfa drugs have been tried the greatest success has been achieved using a combination of streptomycin and penicillin and glucose saline by injection to counteract the dehydration, which may be severe.

A vaccine has been developed which gives good immunity lasting for life, and can be administered as early as age six weeks.

This is the only method of preventing the disease rather than lose either the efficient "mouse" of the store and orchard or the little bundle of fur which is such a family favorite.

Mrs. R. W. Eadie returned to Penticton on Thursday after spending the past three months on a holiday visit in England. While away she spent the major

portion of her time in North Hampton and Windsor, but also toured to many other centres of interest there.

A HONEYMOON TRIP by car and plane to Toronto was planned by Mr. and Mrs. John Herbert Mutch (above) who were married here on Saturday in St. Andrew's Presbyterian Church. The charming bride is the former Miss Mary Lorraine Keeler, daughter of Mr. and Mrs. W. Franklyn Keeler, of this city, and the groom is the son of Mr. and Mrs. Albert Mutch, Toronto. Mr. and Mrs. Mutch will take up residence in Penticton on their return from the eastern trip.

Miss Mary Lorraine Keeler And John Herbert Mutch Wedding Principals Here

Softly glowing candlelight, red and white carnations and massed chrysanthemums intermingled with ferns provided a lovely setting in St. Andrew's Presbyterian Church for the pretty ceremony at 4 p.m. on Saturday, in which Mary Lorraine Keeler, daughter of Mr. and Mrs. W. Franklyn Keeler, of this city, became the bride of John Herbert Mutch, of Toronto. Rev. Samuel McGladdery, B.A., B.D., was the officiating clergyman.

White velvet fashioned the bride's beautiful gown styled with simplicity of line; a bouffant skirt in waist length topped by a molded bodice featuring a portrait neckline and sleeves in lily-point. With this she wore a shell-shaped hat of white velvet sprinkled with pearls and a single strand of pearls and carried a nosegay of white carnations centred by an orchid.

Attending the bride, who was given in marriage by her father, was Mrs. Len Frankland, who chose cranberry velvet for her frock styled identically to that worn by the bride. She wore a matching colored velvet halo and

carried a nosegay of softly hued pink carnations.

Robert Asseltine was best man and ushering were Len Frankland and Russell Pike.

T. I. Jackson, a family friend, from Indian Head, Saskatchewan, was soloist and sang "The Lord's Prayer" during the signing of the register accompanied by organist Mrs. W. A. Swift. Later at the reception held in the Glen Garry Room of the Hotel Prince Charles, for 50 guests, Mr. Jackson, accompanied by Mrs. Jackson, sang "Because".

Assisting in receiving the wedding guests were the bride's parents, Mrs. Keeler attractively attired in taffeta in a milk shade, small feathered hat in blending tones of brown and orange, biege

accessories and corsage of Tailsman roses. The toast to the bride was proposed by W. K. Coult, head, from Indian Head; to the matron of honor by the best man and to the bride's parents by the groom.

A hand made lace cloth covered the bridal table centred with a three-tiered cake which had been made by the bride's maternal grandmother, Mrs. H. J. Ferguson, of Watrous, Saskatchewan. Presiding at the beautifully appointed table ornamented with white tapers and pink carnations were Mrs. Fred Schofield and Mrs. Bella Dorman, formerly of Indian Head and now a resident of this city. Serviteurs were Miss Dianne Tickell and Mrs. Robert Asseltine. Mrs. Russell Pike was in charge of the guest book.

Telegrams of congratulations were read from Calgary, Vancouver, Chilliwack, Indian Head, Eston, Regina, Watrous, Moose Jaw and Toronto.

Mrs. Mutch donned a charcoal grey suit, tangerine hat and scarf, black accessories and blond muskrat jacket with orchid corsage for travelling on a motor and plane honeymoon trip to Calgary, Winnipeg, Toronto and other eastern centres. When they arrive in Calgary they will be entertained by Mr. and Mrs. Peter Leach, Davonish Apartments.

The newly married couple will take up residence in the Beverly Apartments, Penticton, when they return after December 22.

What Hits A DECCA HIT?

How does a hit song go about getting born? Does the songwriter take one out on the cuffs of his last white shirt enroute to the publisher's office, or are they patiently plotted out in the cloistered confines of Mme. Mugwump's Conservatory of Music (Zither lessons on Tuesdays)?

Well this is quite a question, and one that is pretty hard to answer. One good example though is the music of Irving Berlin. Who could boast of knowing more about hit songs than the professor himself. One of his biggest and best is "WHITE CHRISTMAS", recently released again in the Paramount Production of the same name. Decca Records have made the music of this show available on a long play record. Featuring such artists as Bing Crosby, Danny Kaye, Peggy Lee, it just can't help but become a hit. Come in and try it. . . I know you will agree.

St. Andrew's Ladies' Aid Elects Officers For 1955

Mrs. J. L. Palethorpe was re-elected president of the Ladies' Aid to St. Andrew's Presbyterian Church and installed into office by Rev. Samuel McGladdery, B.A., B.D., at the December meeting held at her home last week. Others chosen and also installed were Mrs. McGladdery, vice-president; Mrs. Archie Fead, treasurer, and Mrs. W. E. Carter, recording and corresponding secretary and press representative.

Prior to elections the meeting was opened with devotionals by Mrs. G. Abbott after which several reports were submitted. Upon the reading of the treasurer's report indicating a very nice balance, a substantial cheque was presented to the church board.

Treasurer Mrs. Fead in giving a financial report on the recent annual bazaar disclosed that it had been an outstanding success. Christmas cards will be sent to shut-ins, and a new venture in the form of a member's birthday book was introduced with Mrs. Carter to be in charge of sending the anniversary cards.

Mrs. Palethorpe expressed appreciation to the members and officers for the splendid co-operation shown her during the past term of office. The meeting adjourned and refreshments were served by the president assisted by Mrs. Carter. The next meeting of the L.A. will be held at the home of Mrs. A. Robinson, Bing Street.

Yuletide Parties For St. Peter's, Naramata

NARAMATA — St. Peter's Anglican Church Sunday School Christmas party will be held on Saturday afternoon, December 11, in the parish hall. Party arrangements are under the supervision of Mrs. W. G. Clough, Mrs. G. G. Moncrieff and Miss Muriel Simms. The members of the Junior Guild will hold their holiday party that evening in the parish hall and have invited the members of the Penticton AYPA to be their guests for the evening. Mrs. George Tinning is supervisor of the young girls' organization and has been assisting them with the party arrangements.

Working With The Red Cross

THE CORBETTS OF KALEDEN

"The Corbetts of Kaleden" is the way the Red Cross refers to this hard working couple.

The feminine half of the partnership, Mrs. Carolyn Corbett, has been in charge of the Kaleden unit of the Penticton Red Cross since its inception.

Her job is to collect the raw materials from the Penticton Red Cross Centre, take it to the Kaleden workers and then return the garments when finished — she claims it is a pleasure working with such a cooperative group.

She is also a member of the Penticton executive and a regular worker in the upstairs quilting group of the Penticton Red Cross.

The other half of the partnership, Harry Corbett, has also been a Red Cross worker since its inception. During the second World War, he, with others sold war bonds, turning in all the commissions to the Red Cross. Last year he was elected first vice-president of the Penticton branch.

When Mr. Corbett, who evidently was one of its first residents arrived in Kaleden in 1909, it was a different place to the Kaleden we know today. Penticton has undergone greater changes "I remember how I used to hitch my horse to the rail in front of a boarding house on Main street where Reid Coates Hardware stands now" recalled Mr. Corbett with a reminiscent chuckle. "There are many stories to tell of those good old days — some serious, some humorous."

Whether his stories are sad or funny they are interesting to his listeners as "Harry" spins his yarns of bygone years. He is also interested in other peoples' tales of Okanagan history, so he belongs to the Historical Society.

He tends trees for a living and flowers for pleasure — a hobby his wife shares with him.

The Corbetts are a long way from their native Nova Scotia — Mr. Corbett as we said in 1909; and Mrs. Corbett came here in the middle 1920's. We of the Red Cross feel that Nova Scotia is the looser and British Columbia the winner — as we have "The Corbetts" here instead of there.

THANKS TO KNITTERS

Penticton Herald

Editorials

Council Majority At Stake

The Herald urges every person, who is entitled to do so, to go to the polls here on Saturday and to register a vote in the aldermanic contests, and also on the new school referendum.

The mayoralty election, it would appear, always generates the most interest, and the absence of that voting in alternate years can be relied on to mean a lessened poll. This election, on Saturday, is for aldermanic posts only. Ordinarily, a light vote might be anticipated. So we particularly stress a call to the polls this time.

This is why. Despite the absence of the mayoralty vote at the coming election, an actual majority of council membership will be named.

There are six aldermen and the mayor, a council of seven. On Saturday four aldermanic posts will be filled. So it is obvious that the voting strength of the

new council will be determined by the ballot-marking at the close of this week.

Sometimes we think altogether too much is made of a mayor's potentialities on any council. He can be, and no doubt should be, the dominant influence; the leader and organizer; the hub of all council activity. But the tendency for him to be thought of as all-powerful is of course to fly in the face of facts. He can be impotent, if a council is all against him. His own personal vote, under usual circumstances, doesn't arise. He suffers the fate of any chairman.

Hence what is being decided here on Saturday must be emphasized. A council majority will be selected. The vote is an important one.

The Herald therefore urges that Penticton should make the decision a thoroughly representative one.

The Festival's New Aim

This doesn't seem to be the time to be commenting on mid-summer activity. Yet plans which are now being discussed, involving Penticton's big annual project, the Peach Festival, are very worthy of attention.

The Herald is enthused about the general trend which was forecast in developments of the last year or so and which the new executive is determined to carry forward with progressive emphasis. The new president, M. P. Finnerty, in addressing a service club luncheon here this week, made it clear that the festival, instead of withering away, is acquiring fresh momentum in its new directions.

Those directions will be varied, and will take some time in their fulfilment. But the main stress will be on a festival that is much more a reflection of the area in which it is held, much more "local" in every sense of that word. Professional entertainers from afar will tend to disappear; the rodeo, a feature of other past years, will not likely reappear, for it really is not typical of this part of the country; but "home talent" will come much more into the picture; and there is the hope that the remark-

able upswing in interest in square dancing will flourish to the point where such activity, at the time of the festival here, will hold the interest of the whole north-west.

The Rotary exposition, which has had a successful start, can be developed with growing emphasis on the agricultural fair aspect, with the arts and handicrafts and other parts of the project also keeping heightened pace.

All this, in the course of time, can mean a festival that is truly a district festival, stimulating the cultural growth of the area.

It can be made as enjoyable as anything offered in the past, but the further and fortunate point is that, with sensible management, it can be conducted on most economical lines, without great financial hazard regardless of the weather, or other imponderables.

All in all, the festival, which has already brought such publicity to the community, is setting itself an even higher goal of accomplishment, well within possibility of attainment, and we commend those who are forwarding such an aim.

Ode To Winniehaha White Chief Churchill

Reports in a London paper that Sir Winston Churchill possessed some Indian blood in his veins through his American mother, led to writing of a poem which appeared in the London News Chronicle under the heading "Winniehaha".

The Herald is indebted to R. B. Anthony, of Penticton avenue, for submitting the news story and accompanying poem.

LONDON — A statement that Prime Minister Winston Churchill inherited a touch of American Indian blood from his American mother inspired London's Liberal News Chronicle today to do a Hiawatha-type poem entitled "Winniehaha".

Churchill's cousin on his mother's side, Capt. Lionel Leslie, was quoted by London's weekly News of the World as saying the prime minister is one sixteenth Iroquois through his mother Jenny Jerome of Brooklyn.

Leslie said he based his information on a book published in the United States by his niece, Anita Leslie, about Churchill's grandfather, the fabulous Leonard Jerome.

This was enough to set the News Chronicle to writing a poem which went in part:

In the centre of the village
In the wigwam of the wise ones,
Where the head men of the nation

Came to talk in solemn council,
Squats the old chief, Winniehaha,
Also known as Sitting Bulldog;
Squats and issues his instructions
To the lesser chiefs around him;
And the smoke curls gently upwards.

Upwards from his third Havana
As he dishes out his orders
To the head men and the wise ones.

First he speaks to handsome
Pinstripe;
He who quiets the quarrels
Of the tribes in foreign countries
Pouring oil on trouble waters.

Some there are with minds that wonder
From the purposes of the pow-wow.

Minds that wonder: Will he give us
Just an inkling of the future —
Of the date of his retirement?

Winniehaha does not tell them.
Sitting Bulldog keeps his secret.
Once again a pow-wow closes
With the question still unanswered.

"Got a match?" asks
Winniehaha
As the last one leaves the wigwam

And the smoke curls gently upward.

More Than 200 At Fish And Game Club Banquet

Over 200 fish and game enthusiasts enjoyed a tasty repast aboard SS Sicomous last night when the main course included venison, moose and mountain sheep. It was the annual banquet of the Penticton Fish and Game Club.

Two fine films on fish culture and big game were shown and talks were given by officials of the B.C. Game Department, including Dr. Peter Larkin, chief fishery biologist of the B.C. game department, George Springer of Kelowna, newly-appointed fishery biologist, told of the time he will devote to propagation of fish in the Okanagan.

W. D. Haddleton, president of the local club, stressed the need for a strong organization particularly at the present time when interests of sportsmen in forest management license areas are vitally affected.

Bob McMillan, new owner of

Brett's Sport Shop, was introduced to members. The local sports centre will reopen for business tomorrow.

In the home or on the job, care should be taken in lifting weighty objects. To avoid strain, those within the person's capacity should be lifted.

It is advisable to have medical attention for any recurrent pain or ache, or unusual condition, so that the cause may be discovered and treated if necessary.

Mayor Pledges

(Continued from Page One)

cept when it is in surplus for irrigation purposes.

Public works chairman, Alderman J. G. Harris, gave an example of problems faced by council when he said, "somebody builds a house where there is no road and one is provided. Next comes grading, graveling, black-topping, drainage — so you just can't win."

He spoke of the drainage system installed on Westminster avenue by provincial authorities and of how the city was able to tie in with that system. The need existed, he said, for another drainage system between Eckhardt and Wade avenues and one for the area from Edmonton avenue to Ellis Creek.

NECESSITY OF

School board chairman F. F. Erant, re-elected by acclamation, called for support in the school referendum. He quoted figures to show increased school population and the need for more classrooms. "Two to four classrooms will have to be provided each year, for several years, just to keep even with the increase," he pointed out.

Alex McNeill, chairman of the parks board and re-elected by acclamation, spoke of the board's work during the past year in connection with the arena, establishment of Little League baseball and soccer and expressed hope rugby and horseracing will be added to recreational facilities in 1955.

He hoped the Aquatic Club would become well established at Skaha Lake next year and stated plans were underway for beautification of Rotary Park.

Mr. McNeill revealed that Penticton contained some 33 dedicated parks in various stages of development.

Last order of business was addresses by the candidates with J. W. Johnson, C. G. Moore and Alderman E. A. Titchmarsh speaking on their own behalf for the one year aldermanic seat while Alderman H. M. Geddes, A. T. Longmore, F. P. McPherson and Mrs. Elsie MacCleave addressed the gathering on behalf of their candidature for the three two-year terms.

Rehabilitation helps to prevent the return of TB by trying to restore patients to suitable work in which they can stay well. The Canadian Tuberculosis Association spent \$10,010 last year aiding ex-patients.

Congratulations, Curlers

It will be a happy day at the handsome new Granite Club quarters on Main street today.

For at 2 o'clock there will be the official opening of the new home of Penticton's curlers, to be followed by a program of activity continuing throughout the balance of the afternoon and evening.

There seems to be no brotherhood quite like that of the devotees of the roarin' game. And thus it follows that there will be quite an influx of curlers from all parts of the southern interior today, as greetings and congratulations are conveyed, and in no better way than in the friendly rivalry of a bonspiel that

has been arranged.

The Herald, and the whole community, join in the congratulations. Once again, this is another mark in the city's advancing story. The club, as time goes on, will prove its worth, not only in advancing the particular sport to which it is dedicated, but in the even more valuable contribution it will make towards good companionship and better citizenry.

The project is the result of the work of only a relatively few enthusiasts, who finally brought their hopes to reality. But everyone, directly or indirectly, will share in the benefit.

Not Political Issue

City Council and the Board of Trade have announced their intention of following up The Herald's campaign launched last week to secure replacement of the Ellis Creek bridge on Main street, south.

The antiquated structure has no place in a modern highway. It is much narrower than the approaches from north and south and it is a source of wonder that a highways department, which so evidently is proud of the job it is doing in British Columbia, should so long have overlooked, or ignored, this death trap.

The Herald is of the opinion that Works Minister Gagliardi will act and act swiftly when he is fully acquainted with the facts. This is not a political issue, or of pressure groups seeking something special for their own community, but an issue which could in sober truth become one of life or death.

The Herald is gratified that civic organizations have taken up the campaign we launched last week and joins those organizations in hoping for speedy government action at the bridge.

OUT OUR WAY

By J. R. Williams

5 minutes from now

Another fire will break out...

That's what is happening right now and 'round the clock somewhere in Canada.

In the average year, the insurance business handles more than \$75 million in fire losses—quite aside from other claims. It is the size of the loss figure which regulates the rates for every different type of fire, automobile and casualty insurance in various parts of Canada. If losses increase out of proportion to earnings, then insurance rates go up. On the other hand, if losses fall off, rates decrease. In effect, Canadians collectively determine their insurance costs through their care or carelessness.

For Satisfaction

Summerland P-TA Anxious To Add To "Piano For Auditorium" Fund

SUMMERLAND — Summerland P-TA members feel that they should start digging up ways and means to add to the piano-for-the-auditorium fund, which already has a nearly \$500 nugget tucked away in the bank in a trust fund. This was raised by efforts of the students in contacting all graduates and asking for a donation. It seems that this money has been almost forgotten. When the P-TA found out that they could not bring an accom-

plished musician to Summerland this fall, because of lack of a suitable piano, Mrs. C. Adams, the president, thought it was time to go into action.

Summerland has an excellent stage, fine lighting, all second to none in the province but no piano necessary to high grade concert recitals.

At the P-TA meeting on Thursday evening, it was decided to ask service clubs and community organizations to get behind this project and obtain a piano to round out cultural potentialities here.

Mrs. F. E. Atkinson gave a splendid report on Teen Town work, saying that adult sponsors are Mr. and Mrs. A. F. Crawford, Mrs. W. B. Greer, Mrs. H. L. Sinclair and George Clark. A full slate of officers has been elected with Don Gilbert, mayor, Glen Heavysides, vice-mayor, Marilyn Wade, secretary, and Nona Lewis as treasurer. The constitution and rules have been gone over, Teen Town is in good financial standing, and planning to sing Christmas carols on December 23 for the March of Dimes campaign. There will be a dance this month, proceeds to go to the Youth Centre Association, and later a Teen Town Christmas dance will be held.

Mr. and Mrs. Crawford and Mrs. Atkinson will act as an advisory committee.

The meeting decided to submit again to the provincial body a resolution asking that the tax on band music coming from the United States be removed by the government.

Mrs. Alfred Rumpf, the secretary, gave a report of the P-TA regional conference which she and the president attended in Penticton in October.

A. K. Macleod, principal of the junior-senior high school, gave an informative talk on how marks are graded on report cards, which always seem to be something of a mystery to parents.

Miss Frances Atkinson was guest speaker, and with slides projected by Miss Sheila Berg, told of her trip to New York this summer on the IOOF Youth Pilgrimage to the United Nations. Again, the benefits of Frances' trip were greatly amplified through her sharing it with so many people who enjoyed her talk and the pictures illustrating it.

Shippers Get \$1,100,000 For Peaches, Prunes

Shippers received more than \$1,100,000 from B.C. Tree Fruits Ltd., in the peach and prune pools which closed recently.

All packinghouse charges must be deducted from the amount to arrive at the net payment to growers.

B.C. Tree Fruits said the peach pool figures were approximately \$763,000 and the prune pool \$431,000, making a total for the two of \$1,194,000.

Closing prices "compared favorably with last year."

The organization explained that an exact comparison is not possible because of the many grades and varieties involved and the changes from year to year.

Peach pool closed November 26 and the prune plum pool December 1.

Some retailers in Alberta have complained of the quality of B.C. fruit, but are reported to be well satisfied with the cell-pack McIntosh.

Northern Ontario retailers are finding the junior boxes a great help in increasing sales. Vancouver reports hand-picks very popular.

Although Flemish pears are of fine quality and nicely colored, the demand is slow.

WITHOUT COMMENT

A letter from the Health League of Canada asking financial assistance from the city was ordered filed by City Council, Monday, without comment.

Canada's first public electric utility was born in Pembroke, Ont., in 1884.

Summerl'd Vote

Continued on Page 5)

and will be operated as an independent body. The Curling Club pays annually \$800 on a 20-year lease for space in the rink.

Under municipal control presumably the rink would be operated by a rink board similar to the present parks board — there would be no danger of (a) using the ice for activities showing greatest profit; (b) operating the skating rink during hours when it should be closed, e.g., late at night or on Sunday mornings; (c) allowing poor behavior on rink premises for fear of driving away customers; (d) allowing any particular age groups more than their fair share of ice time; (e) allowing hockey clubs, local or outside, to use the ice when it should be available to the general public.

Finally with public recreation becoming more and more a public responsibility, financial support of the rink in a community this size, should be broader than 192 bondholders.

Mother Of Former Penticton Resident Dies In England

A former resident of this city, Fred Paul, of Kelowna, has received word from England of the death of his mother, the late Mrs. Jane Paul, at the home of her youngest daughter, Lillian, in Deddington, Oxfordshire.

The late Mrs. Paul would have observed her 100 birthday had she lived to April 23. She is survived by her son, Fred, of Kelowna; another son, Ernest, in Chestnut, Herts; her daughter, Lillian and two other daughters, Rose (Mrs. E. Tomlin), in Oxford, and May (Mrs. G. White) in Chippenham.

World Day Of Prayer Observed At Sum'land

SUMMERLAND — The Baptist World Day of Prayer was observed in Summerland on Friday afternoon when members of the Shirley Knight Circle of the Baptist church and girls of the CGIT united in prayer with Baptist women throughout the world.

Mrs. Blake Milne, the president, led the devotional period, and special prayers were offered for Christian work in the different continents.

Mrs. Flora Bergstrom and her daughter, Johan, delighted those present when they sang a duet.

Sir Sanford Fleming, a Canadian engineer, laid the first cable across the Pacific in 1887. Canada is one of the world's largest producers and users of electricity on a per capita basis.

Domestic Water Survey Is Nearing Completion

Importance of early completion of the domestic water survey was stressed by Alderman H. M. Geddes, chairman of the domestic water committee, when he addressed the annual stewardship meeting, last night.

"This new water survey which is nearing completion will tell us how much water we have used, how much we are now using, and what we will need in the future," declared Alderman Geddes.

"The completion of this water survey is very important, as expenditures in years to come will involve considerable sums of money, and the money spent now on investigation is well warranted and will be invaluable in planning ample water supply on a long term basis."

Alderman Geddes' domestic water report follows:

RATES INCREASED

As you already know, domestic water rates were increased 50 percent from July 1, 1953. The result of this increase not only continued to keep domestic water rates in Penticton in a lower bracket of water rates being charged at other places in the province, but gave your Council the additional revenue necessary to conduct a much needed expansion program of the system on a pay-as-you-go basis. It was necessary to embark on the latter type program as the per capita debt in Penticton at that time was such that it was not deemed in the best interests of the city to borrow further for this purpose.

To assist you in the appreciation of what the effect has been, I offer the following information: 1952, prior to the increase, our revenue from the sale of domestic water amounted to \$59,500 (all figures quoted in nearest thousands). After meeting operational costs, the department showed a net profit of \$18,000, which was used to offset the total capital expenditure from general revenue of \$39,000.

In 1953, increased rates having been in effect for a period of six months from July 1 to December 31, contributed substantially to increasing the revenue received from the sale of domestic water which amounted to \$83,500, and after operational costs had been deducted, reflected a net profit of \$59,000. This profit allowed the Council to spend out of general revenue, the sum of \$79,000 in 1953 on capital installations.

SUBSTANTIAL PROGRAM

We estimate this year, even though the summer months were not overly warm, a gross revenue of \$88,500 which is approximately \$80,000 after operational expenses

have been deducted. This profit has again allowed the Council to plan a substantial program for the enlargement and improvement of the domestic water system, and it is anticipated that the program as planned for this year will be completed by December 31. This program consisted of:

1. Increasing the size of pipe from 4" to 6" along Nainalmo avenue beyond Main street and Haynes street.

2. Expanding the domestic water along Manitoba street beyond Forestbrook drive and Edmonton avenue.

3. Replace the Carter-Price line along the Lower Bench, north side.

4. Increase Burns street main from 2" to 4".

5. Lay 6" line 800' west of Power street along Westminster avenue.

6. Replace 1' line with 6" line for a distance of 600' north from Kean's corner beyond cemetery.

7. Increase Hastings avenue main to 10" from Argyle street to Moosejaw street.

8. Lay 8" pipe on Eckhardt avenue west of Railway avenue for a distance of 1,300'.

In addition to these major items several expansions were made to create good circulation and pressure such as connecting Argyle street with Scott avenue, and putting feeders on Leir avenue and Manitoba street.

9. Complete domestic water installation on Nelson avenue.

The cost of this program will be approximately \$81,500 which excludes any installations made for newly created subdivisions, which is payable by the subdivisions.

You can well appreciate from the figures which are quoted that the money derived from the domestic water system has not been for any selfish purpose but to re-vamp and enlarge the domestic water system to ensure everyone satisfactory pressure and supply for the present as well as the future.

WATER SURVEY — FACTS AND PROPOSALS

1. If we had a real dry year we would be short of water even with the present consumption.

2. Domestic water consumption has increased 40 percent in the past seven years.

3. Population increased 83 percent from 1941 to 1951.

4. Projected possible population according to the new plan of 27,000 or two and one-half times present population, would due to increase of both population and per capita rate of consumption increase perhaps four times the present consumption.

5. Domestic water required for storage has increased from 150

acre feet to 800 acre feet in the past 20 years, and no new source of supply, barring pumping from the lake, have been developed.

6. Present 12" lines from the intake are inadequate for the present population.

7. Population expected to expand towards Skaha Lake, and probable future Skaha installations should draw water from either Ellis Creek or Skaha Lake.

Possible expedients for additional water:

1. Extra storage by additional dams on Ellis and Penticton Creek.

2. Natural ground water flow into Ellis Creek.

3. Pumping from either or both lakes for irrigation and using creek water for domestic use.

This new water survey which is nearing completion will tell us how much water we have used, how much we are now using, and what we will need in the future. It will also tell us how much water we have available and what the possibilities are for future development. It is hoped to complete all these details early next year and finalize definite proposals.

The whole question of domestic water supply is very closely linked with the irrigation supply and any proposals will have to ensure adequate supply for both domestic and irrigation purposes.

The completion of this water survey is very important, as expenditures in years to come will involve considerable sums of money, and the money spent now on investigation is well warranted and will be invaluable in planning ample water supply on a long term basis.

West Benchers May Join With District Group

West Bench residents interested in formation of a horticultural society, home planting, community development and other related efforts will be advised at their annual meeting next month that most satisfactory method of doing so is to become members of the Penticton and District Horticultural Society.

This recommendation was formulated at a meeting of the West Bench Development Committee, VLA officials, and officials of Summerland Farm, held at Canadian Legion hall last night. Chairman of the meeting was H. J. Pelham.

John Bowen, of the Summerland Station, dealt with literature available regarding planting and landscaping. Literature may be obtained through provincial or dominion authorities or the extension department at UBC.

A. C. Carter, assistant district horticulturist, explained the organization and activities of the horticultural society and suggested it would be advantageous for West Bench residents to join the established body. The West Bench Development Committee would retain its identity to deal with problems peculiar to their community.

J. T. Waterfall, supervisor of development, VLA, gave an interesting address on landscaping, emphasizing driveways, grades, shrub planting and lawns.

Discussion took place on development of the area set aside for a park adjacent to the lot designated for a school.

Hope was expressed that road allowances will be planted with a mixture of grass to eliminate weeds.

The third annual Canadian Ice Fantasy visits Penticton at the Memorial arena December 15 and 16. There is an 8 p.m. show both days, and a 4 p.m. matinee on the former.

North America's first electric Turnover Toaster was built in Canada in 1914.

TRAILER CAMP LOCATION TO BE DISCUSSED

City Council and the Town Planning Commission will meet in the near future to iron out a difference of opinion as to location of trailer camps.

The town planners informed council last night that they could not agree with a council recommendation that trailer camps be located the same as auto camps.

Council argued that somewhere the word "basis", making the recommendations read, "located on the same basis as auto camps" had been dropped, leading the town planners to misinterpret council's meaning.

Alderman H. M. Geddes, council representative on the town planning commission, argued that the commissioners could not consider trailer camps on the same basis as auto camps because auto courts could be permitted in residential zones, but trailer camps — no.

It was pointed out that the master town plan recommendation called for trailer camps being located in the heavy industrial zone.

This led Alderman E. A. Titchmarsh to argue that council's recommendation was more reasonable than the one recommended in the master town plan. Auto courts and trailer camps are integrated businesses and should be allowed together, he contended.

It was then decided that an across the table talk with the commissioners might be the best way of finding a solution.

Dull Vancouver Election Predicted

VANCOUVER — (BUP) — A record 219,337 residents are eligible to cast ballots today in what returning officers predicted will be one of the duller civic election days in the city's history.

The post of mayor, four aldermanic seats, four parks board posts and five vacancies on the school board were to be filled.

Mayor Fred Hume, seeking a third term, was opposed by Archie Proctor, running on an independent ticket, and Albert Dunn, a perennial candidate.

NARAMATA LOCALS

Mr. and Mrs. H. C. St. Marie, of Golden, parents of Mrs. Grant Willan, who is in the Penticton Hospital where her second daughter, Barbara Jean, was born on November 29, are currently visiting in Naramata and plan to remain here over the Christmas holiday season. Mr. Willan's parents, Dr. and Mrs. W. B. Willan, of Ocean Park, who have also been visiting in Naramata, returned home on Friday.

Dr. S. V. Fawcett, Union College, Vancouver, is the guest lecturer for the current two weeks' lectures at the Leadership Training School. "Life of Jesus" is the subject of his course.

Mr. and Mrs. H. W. Ellis left on Thursday for Kamloops where they plan to reside for the next several months.

Mr. and Mrs. J. A. Noyes have taken up residence in their home recently purchased from Mrs. Edith Languedoc in the Naramata village.

Rev. R. A. McLaren, principal of the Christian Leadership Training School, returned to Naramata on Saturday after spending the past week in Calgary and Edmonton on a business trip in connection with school business. While in Alberta he attended a presbytery meeting in the latter city.

An estimated 75 or more Naramata residents were donors to the recent Red Cross Society's blood clinic held in Penticton. This is an unofficial estimate released by clinic chairman W. F. Suter to Mrs. J. A. Noyes, chairman of the Naramata blood transfusion service. The accurate number of donors will be made known when the official figures are sent to Mr. Suter from Vancouver headquarters. Mrs. Noyes is most grateful with the excellent response from the Naramata residents and wishes to express appreciation to them and to the many who assisted with the work in connection with the visit of the travelling clinic. Invaluable help was given to the chairman by the members of the Naramata Red Cross Evening group. They assisted with the addressing of the appointment cards, telephoning and generally contacting all potential donors. Special mention was made in respect to the students at the Christian Leadership Training School who greatly swelled the list of blood donors.

Among students from the Leadership Training School participating in the Sunday evening services at the Naramata United Church were Miss Marie Dunn, of Woodstock, Ontario, who conducted the worship session; and speakers, Miss Patricia Brownsey and Kenneth Gibbard, both of Victoria.

Reports Given, Christmas Displays Made At Horticultural Meeting

Regular meeting of the Penticton and District Horticultural Society was held Monday in the Hotel Prince Charles.

Mr. Kennedy reported that the rose beds at the hospital had been mulched and prepared for winter and the chairman, C. Carter, reported that 20 dozen tulip bulbs had been added to the hospital flower beds.

Mrs. Van der Burgh gave an interesting talk on garden books suitable for Christmas gifts.

Some of these books are to be found in the local library. John Rye brought a quantity of evergreens to the meeting and these were used by members to make wreaths and door swags for Christmas decoration. Others brought Christmas table and living room arrangements. The judging of the displays was done by the members, balloting their selection of the best display in each class.

Plants were awarded to the winners as prizes. Mr. and Mrs. K. McKay receiving the reward for both table and living room decorations, while Mr. McKay

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They turn and toss—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better.

RUDDERLESS FISH PACKER IS NOW SAFE

VANCOUVER, (BUP) — The fish packer Western Challenger, whose rudder broke off in heavy seas off the Queen Charlotte Islands, was towed to safety early today by another boat which answered an SOS sent out by the seven men aboard the stricken vessel.

Capt. Arthur Lilly radioed his boat was heading for Alaska with a fish barge in tow when she lost her rudder. The barge was cut loose and smashed to bits on the rocks.

The boat's nose was turned into the gale, but the packer was being pushed steadily toward the rocks. Two anchors thrown out were swept away before another boat, the W. F. Gibson, answered the distress call. The rescue boat secured a line aboard the Western Challenger and towed her to Awlford, B.C.

CHRISTMAS BONUS

Christmas bonus to city residents under the social welfare will be paid as usual this year with City Council matching the government's bonus of \$5 to a family and \$2 to single persons with like amounts.

"INTO THE CORNER WITH A RIGHT-HAND STAR..." sings the caller as the Peach City Promenaders swing into a lively Virginia Reel. The rollicking action pictured above was snapped during the latest gathering of the popular city group in their successful "at home" in the High School cafeteria. The Promenaders are well known in the South Okanagan for the part they play in the Peach Festivals. One of the features of the big annual show here is square dancing, and the Promenaders will be repeating their past successes when they wing their partners in the Peach Festival of 1955. Included in the above picture are: Summerlanders Mr. and Mrs. Blair Underwood and Mr. and Mrs. John Holman; while among the Pentictonites can be seen Elsie Ashcroft, Cy Lovell, Mr. and Mrs. Harold Hoey, Mr. and Mrs. Jim Cumming, Jim Jenkins, Mary McInnis, Jennie Meldrum, Harley Andrew, Joe Foster, Dr. Bob Parmley, Gwen Barr, Mr. and Mrs. Al Shipton, Jerry McMorland, Louise Schwenk and Doug Southworth. Can you find them all? This is only part of the crowd of over 100 attending the gay party. Photo by Margaret Hendry

Court Of Revision Under New Act Set For February 1, 2

Municipalities, including Penticton, will have the first opportunity to appeal assessments under the new assessment equalization act.

Council was informed to this

effect Monday in a government circular which set the date for the 1955 Court of Revision hearings to be held in Penticton and embracing all of School District No. 15 for February 1 and 2.

Municipal appeals will be heard first, the letter stated.

"There should be a lot of appeals," commented Alderman Christian.

SUMMERLAND CAN DO IT TOO!

Because We Will Have:

- LOW DEBT SERVICE CHARGE — our rink will cost about a quarter the amount of other Valley rinks.
- IT WILL BE OPERATED ONLY DURING THE PROFITABLE WINTER MONTHS.
- SUMMERLAND HAS CHEAP POWER — a major operational expense for artificial ice.
- ECONOMICAL OPERATION — likely under a commission similar to our Parks Board.

HELP OUR YOUNG PEOPLE BY VOTING FOR THE RINK REFERENDUM IN SUMMERLAND

Revived Packers Forget 7-Game Losing Streak, Whip Canadians 4-2 For Second Straight Victory

VERNON — Kelowna Packers outscored Vernon Canadians two goals to one in each of the first two periods and protected the margin with a stout forechecking game in the final session to walk off with a well-earned 4-2 victory here last night.

The win, second straight for the much improved Packers, drew them to within three points of second place Vernon and Kamloops.

The Packers took a 2-1 lead in the first on goals by Norm Kirk and Jim Middleton. Odie Lowe replied for the Canadians.

Sherman Blair tied it from close in after two minutes of the second but Joe Kaiser was back at 7:33 to score what proved to be the winner on a nice set-up by Bob Dawes who put him in the clear at the Vernon blueline. Ken Booth notched the final goal of the game 12 seconds from the end of the second and it added starch to the Kelowna defence in the final frame.

Canadians outshot Packers 27-19 but found Bob Lalonde steady in the visitors' net. Joe Kaiser, with a goal and two assists, Jim Middleton, with one and one, and Bob Dawes were standouts for the winners.

SUMMARY
First period — 1, Kelowna, Kirk (Middleton, Kaiser) 8:03. 2, Kelowna, Middleton (Kirk, Kaiser) 14:44. 3, Vernon, Lowe (Roche, Stecyk) 17:46.

Penalties — Agar (2 minors and misconduct), Wall, Swarbrick (minor and misconduct), Schall.

Second period — 4, Vernon, Blair (King) 2:00. 5, Kelowna, Kaiser (Dawes) 7:33. 6, Kelowna, Booth (Hanson) 19:48.

Penalties — Nil.

Third period — Scoring nil. Penalties — King.

Cawston News

Mr. and Mrs. Z. Witt returned recently from the Cariboo after spending the summer in and around Horseshy and Williams Lake. At Horseshy, Mr. Witt was working with the Overton Bros. on two important contracts, a forestry building and a seven-room modern house for the Ranger.

Mr. Witt had this to say about Horseshy and the surrounding country. Nearly all the men in Horseshy are guides; and prospective hunters and fishermen stop there for information. Question lake, a large lake about 20 miles north of Horseshy, is a fisherman's paradise, also two smaller lakes, Horseshy and Little Horseshy. The country is heavily timbered and there are many beautiful wild flowers, wild columbine, roses, mountain lilies and many others. Sawmills operate in the district amid thousands of acres of untouched timber.

The busy flourishing town of Williams Lake with a population of about 1500 is 50 miles west of Horseshy. Here the Overton Bros. built the Skyline school, a modern two-story school for out-of-town children. This is on the south side of town overlooking the lake. There are over 100 sawmills around the lake and carloads of lumber, logs and cattle go out every day. Two big cattle sales were held during the summer and the town was crowded with buyers. The hotel space being limited, the PGE brought in a train of Pullman sleeping cars for extra accommodation. One sale lasted two days and as many as 3000 head of cattle were sold. The stockyards were lighted with hundreds of lights and the voice of the auctioneer carried for nearly a mile. The Williams Lake airport is a busy place with planes coming and going all day, some carry pontoons and land on the lake. This is a great country for big game, especially moose. Mr. and Mrs. Witt saw one light delivery truck loaded with four moose.

The Women's Association of the United Church held their Christmas bazaar in the community hall on December 2, with many attractive articles for sale, home cooking, candy and table decorations. The sale was opened by Mrs. L. L. Schoutz. Mrs. L. Sanderson presided over the candy stall, Mrs. Dan Spencers and Mrs. Strong, home cooking, Mrs. MacDonald, Mrs. Trigg, fancy work and Mrs. George Stewart and Mrs. Huard served refreshments.

The Badminton Club elected their officers for the year at a meeting held November 25. Mrs. A. Swan was elected captain and Mrs. P. Evans secretary-treasurer.

Fourth Family Night Held At Summerland

SUMMERLAND — The fourth Family Night arranged by the Summerland Youth Centre Association to raise funds for the Youth Centre was attended by 350 on Friday evening, and was a great success in every way, including financially.

The Youth Centre is completely free of debt but needs a certain amount of money annually for operational expenses and maintenance. While the youth groups which make the building their headquarters pay a nominal fee, this is augmented in other ways, one of which is Family Night.

A. F. A. Crawford, the president, and Dr. D. V. Fisher, vice-president, were prime movers in planning the program, with the component members rising to the occasion in fine fettle.

On the program were boxing events by 1st Summerland Scouts under Dr. Fisher; a fashion show, 1st Summerland Cub Pack, Cubmaster, Mrs. A. McGargar — an event which roused roaring applause; enrolment ceremony, 1st and 2nd Summerland Brownies, Packs, Brown Owls, Mrs. A. G. Blissett and Mrs. W. M. Toews; campfire, 1st Summerland Guide Co., Capt. Miss Dorothy Britton.

Lionel Guidi gave a couple of his spirited songs with his own guitar accompaniment. The 2nd Summerland Cub Pack, cubmaster, Walter Charles, had a fishpond; Guides sold home cooking; Brownies had a candy stall.

Coffee and cake were served by ladies of the Youth Centre executive, Mrs. A. F. A. Crawford, Mrs. F. E. Atkinson, Mrs. C. Adams, Mrs. C. Reinertson, and Mrs. J. H. Dunsdon, and the children were given apple juice and cookies.

An interesting item was explanation of cub badges and how they are earned, by Dr. J. M. McArthur.

Fewer Accidents More Licenses Issued In B.C.

The traffic accident picture in British Columbia has brightened considerably despite a steady increase in the number of vehicles using the roads.

Attorney-General Robert Bonner said recently that the number of accidents in the province dropped 4.38 percent in the first seven months of this year while the number of licensed motor vehicles increased 6.78 percent.

Injuries from car accidents were reported to have dropped 10.1 percent, death by one percent, and property damage by 3.6 percent.

Stricter enforcement measures, greater driver education and more conscientiousness on the part of drivers have all played a role in the improving picture, the attorney-general said.

Suspension of drivers' licenses is considered to have played a part by keeping bad drivers off the road.

A total of 5,500 drivers were suspended from the beginning of January to the end of August for a variety of reasons, an increase of 52 percent over last year.

Law enforcement agencies were responsible for 1,260 suspensions and some 4,017 drivers were prohibited from driving pending proof of financial responsibility. Another 368 were suspended because of poor driving records.

Some 836 poor drivers have been warned by letter that they face license suspension unless their ability improves, a 300 percent increase over last year.

Insurance companies base their rates on a year's experience, according to officials of the attorney-general's department, and if the low accident rate continues, the companies are likely to reduce rates.

Total number of accidents in the first seven months of this year is 11,209, compared with 11,723 for the same period of 1953. Injuries totalled 3,589 this year, 3,992 last year. There were 91 traffic deaths this year, 92 in 1953.

Property damage caused by

highway accidents totalled \$3,555,370 to the end of last month, compared with \$3,687,143 in the same period last year.

There are 344,431 motor vehicles using the highways, compared with 322,556 at the end of August last year.

Crop Of New Stamps In '55

The Honorable Alcide Cote, Postmaster General, has announced that the Post Office Department will issue at least seven new design postage stamps during the calendar year 1955.

The present ten-cent postage stamp will be replaced by a new design that will illustrate an arctic scene, the central figure of which will be an Eskimo hunter.

In April, 1955, two stamps will be issued illustrating wild animals of Canada. These stamps will be issued in support of National Wildlife Conservation. The jubilee of the provinces of Alberta and Saskatchewan and the first International Boy Scouts Jamboree to be held in Canada will be commemorated by special postage stamps.

Two stamps will be issued portraying the former Prime Ministers, the Hon. Sir Charles Tupper and the Rt. Hon. Richard Bedford Bennett.

Further details with regard to the dates of issue and design will be announced later.

... OF CABBAGES And KINGS

by Vince Duggan

TOO LATE

Now it can be told. At precisely 11:45 a.m. last Thursday morning a man rushed breathlessly into City Hall just 15 minutes before deadline for civic nominations. "Let me have a set of nomination papers, please," he said. "I have a candidate lined up for the two-year aldermanic seats." With that he left to get the necessary names, actually running as he made his way up Main street. But the minutes ticked off and when returning officer Reg Atkinson declared nominations closed at 12 noon, the man had not returned. So there is one less candidate than we figured there would be.

EVERYBODY LAUGHED

At the recent ratepayers' meeting an appeal was made on behalf of old age pensioners for provision of a meeting room. "We'd like a place to sit down and chat things over," explained Mr. Hull. Mayor Matson was most sympathetic. "I'll try to provide a place for you," he promised. J. W. Johnson was on his feet. "Couldn't they use the council chambers?" he wanted to know. "There used to be a reading room at city hall." "Oh?" somebody asked. "What is that room used for now?" "It's the mayor's office," replied Mr. Johnson, and everybody laughed, including the mayor.

RUNAWAY CAR

Then there are the folks on Cambie street, just off Vancouver avenue, thanking their lucky stars a mishap that overtook the family car wasn't more serious. The auto was perched in the driveway, preparatory to a wash job, when it took off on its own, slowly but surely. The phantom driver steered a course across Cambie, over the rocks and down, down, down while the people stood helplessly by. After travelling a distance of about a block, the vehicle came to rest near Black's pond. Too bad folks, you hadn't put that emergency brake on.

LIQUOR FOUND

Title of this piece could be "The Good Earth". An orchardist out Four-Mile way was spading around his apple trees when his shovel hit something that didn't sound like rock. It turned out to be real pay dirt as three mickies of rye and a bottle of gin were unearthed. I could tell you who made the cache (not the finder) and who the orchardist was, but words unspoken are better in this instance.

UNSEASONABLE BLOOMS

Recent nippy weather probably touched roses at the C. L. Badgley's, Kaleden, with the kiss of death but up until last week Mrs. Badgley, who is an ardent grower of roses and has over 100 varieties, was quite proud of the blooms in her garden. They are of an early spring variety called Persian Yellow but the mild weather was bringing them out in December. A neighbor was remarking on a hunting trip when he ran across a rattlesnake, usually well hibernated at this time of year, and the Badgley's went him one better with their rose display.

DOOR TESTING

Did you see local bank people out testing doors to their establishments in the wake of recent Vancouver holdups? I saw the manager of a local bank and two hefty employees with shoulder to door the other morning, but it didn't budge an inch.

A local wag says adolescence is the time when girls begin to powder and boys begin to puff.

The first successful auto trip across North America was made from San Francisco to New York in 1903.

Adequate Pumps For Domestic Water Supply Needed Says Alderman

Installation of pumping equipment adequate for the city's present full needs and its future calculated needs, disregarding gravity water for domestic purposes, was advised by Alderman E. A. Titchmarsh, chairman of the irrigation committee, when addressing ratepayers at the annual stewardship meeting held last night. Alderman Titchmarsh's report follows:

Since this is a meeting of many speeches, probably giving you enough statistics and figures to cause "statistical indigestion", I propose to be brief, and to quote as few figures as possible.

Apart from my responsibility as a member of the public works and domestic water committees, I carried the chairmanship of the irrigation and land sales committees.

Dealing first with the irrigation department. By and large, the current rates charged the irrigationist meet the operation of this utility, so that the department neither subsidizes or is being subsidized by any other department.

Owing to adequate and timely natural precipitation, the department was able to give service which, I believe, met requirements of even the most demanding water users in full, with minimum interruptions from breakdowns. I am of the opinion that the distribution system is being maintained in fair condition. A capital program of enclosing and pressurizing laterals and, finally, the main aqueduct should be drawn up and adhered to. The contentious question of the inclusion of extra areas within the irrigated area should be brought to a conclusion and finalized.

Statistics: capital expenditure, \$4,300; maintenance and ditching, \$23,000, total — \$27,900 (excluding debt charges).

Now a word on availability of supply as it affects both irrigation and domestic requirements. The irrigation survey points up the inadequacy of supply during dry-cycle years. Future domestic water needs have been calculated.

FINANCE COMMITTEE REPORT TO RATEPAYERS

City Projects In 1954 Carried Out On "Pay As You Go Basis"

Reduction in civic debt and carrying out a policy of "pay as you go" on many projects, were accomplished in 1954, Alderman F. C. Christian told ratepayers at the annual stewardship meeting last night.

The finance committee chairman did not elaborate on work done in 1954 and confined his report mostly to recommendations for consideration for the 1955 council.

The finance committee report presented by Alderman Christian and signed by committee members, Aldermen H. G. Garrioch and Wilson Hunt, follows:

1. The year 1954 has been a year in which the city's projects have been carried out on a "pay as you go" policy.

2. The year 1954 should show an estimated reduction in the civic debt, by about \$125,000.

The finance committee does not propose to review the work of the 1954 council or that of the committee as same is, or should be, evident to the public generally. However, the committee would recommend to the 1955 council that it give favorable consideration to the following matters:

(a) The operation of the city's affairs out of current revenue, without recourse to borrowing, except possibly for emergencies, in the hope that the civic debt can be further reduced in a time of inflation.

(b) Further study to and the gradual implementation of the five year capital works plan adopted by the 1954 Penticton City Council in principle.

(c) The carrying out by the 1955 council of suitable public

LONG HOLIDAY

Magistrate G. A. McLelland will take six weeks holiday in 1955. The city's police magistrate saved his three-weeks vacation this year so that he could enjoy a six week stretch next year visiting relatives in Ontario. Council readily granted the magistrate's request to combine two vacations in one providing he arranges for an acceptable substitute.

Recreation is necessary to workers and students, as a stimulation to health and as a mental tonic.

Stenographers Wanted

Positions available at our Trail, B.C., operations for single stenographers. Short-hand essential. Salary dependent on experience. Benefits to salaried employees include two weeks' annual vacation for a calendar year of service. Measure of assistance with group insurance, M.S.A. and sickness coverage. Twelve days paid sick leave per year. Apply: W. N. Woodhouse, Staff Department, The Consolidated Mining and Smelting Company of Canada Limited, Trail, B.C.

The fumes of carbon tetrachloride are dangerous if inhaled and, since the chemical is frequently used as a dry cleaning solvent, it should never be used in rooms where there is no ventilation.

"SUCH A DARLING, THE PERFECT GENTLEMAN," to be sure, the gentleman is Perry Darling who wrote the forthcoming Naramata Players production, Money To Burn. And the enchanting lady with the risque cigarette holder is Val Morche's Mrs. Hubbel. Her performance promises to be an inspiration in local amateur theatre circles as this fast moving comedy, set in the gay 20's, comes to life on stage this Thursday and Saturday at the Naramata Community Hall. Mr. Darling is cast in the leading male role of the peppery old Major Clifton-Brown.

GEORGE WOLTTE WAS ALWAYS ACTIVE IN LIFE OF COMMUNITY

SUMMERLAND — On Friday morning when George Woltte was found to have died in his sleep Summerland residents heard the news as a shock. They recalled the quiet way in which he has taken part in many community activities since he came here in 1944 when a tractor accident forced him to leave the prairies where he had lived all his life.

Three generations ago the family came from Switzerland where the name was spelled Walte. They settled in North Dakota. Forty-five years ago they moved to Warner in southern Alberta. That was when the place was open prairie with free grass for everyone and not a tree for miles. These were the days of big ranches and big herds, and George Woltte as a young man rode the ranges for three years, often sleeping out under the stars. When, in 1911 the government opened the way for homesteaders there, he helped gather 11,000 cattle in one herd.

He and his father took up land together, which he still held, and which he visited twice a year. There he cropped 1200 to 1500

acres every year, and had Hereford cattle with the Woltte brand Bar FX. The old Woltte brand used in the States, was kept for horses. It was quarter circle FV, though Mr. Woltte had gone out of raising horses some years back.

Altogether they had about 8000 acres, part of it leased from the government.

Although he said he hadn't done anything of importance but work, he was on the school board at Powell, Alta., for 21 years. He enjoyed playing baseball, too, and was the team's catcher.

He saw the big threshing crews give way to combines, and not long ago mentioned that where it formerly took 16 to 24 men to handle the harvesting, now a combine with two men and two trucks can do it all.

He felt that the way of the prairies wasn't gone. "It's big," he said. "A handshake can still close a deal. It's a question what is it, but it's still there. It gets into your blood."

In Summerland he had just been re-elected by acclamation to the parks board in which he took a great interest. He assisted with the Board of Trade's spring fairs and furthered the arena.

He is survived by his wife, the former May Culler, whom he married at Lethbridge in 1917. Two daughters Mrs. Jack Leibel and Mrs. Wes Kuehn live at Warner, Alberta. A son, Glen, farms in Meadow Valley on the place where the Wolttes lived on first coming to Summerland ten years ago. His mother lives at Red Deer, Alta., and he is also survived by three brothers and two sisters.

Funeral services were held from Lakeside United Church Sunday at 2 p.m. Mr. Woltte was a member of the church's board of stewards at the time of his death.

Reverend C. O. Richmond officiated at services and remains were forwarded to Warner, Alberta for committal. Penticon Funeral Chapel in charge of arrangements. R. J. Pollock and J. V. Carberry directors.

Among those attending funeral services for the late George Woltte held on Sunday afternoon in the Lakeside United Church were his sons-in-law and daughters, Mr. and Mrs. J. Leibel, Mr. and Mrs. Wesley Kuehn, and his brother Clarence Woltte, all of Warner, Alta., and a sister, Mrs. Gladys Solce, of Lethbridge, Alta.

They, with Mrs. George Woltte, and Mr. and Mrs. Glen Woltte, Meadow Valley, have gone to Warner where the Elts will conduct a church service prior to committal there.

Premier Asked To Open Library

KELOWNA — Premier W. A. C. Bennett will be invited to officially open the new headquarters of the Okanagan Union Library early in January.

Kelowna Board of Trade is also hoping the premier will be able to address members early in the new year. It is anticipated Mr. Bennett, if he is able to address the meeting, will disclose the latest developments in the proposed bridge across Lake Okanagan.

Council May Let Trailer Camp Go

The city may get out of the trailer camp business. Discussion in City Council meeting Monday indicated that council is reluctant to earmark the substantial funds required to bring the city's trailer camp on Power street up to standards required by health authorities and for government registration.

A letter from C. F. Hartigan, health inspector, reminding council of the lack of sanitary facilities, the government department's warning that unless this situation is rectified the camp would not be registered for the 1955 season and of the only alternative, restricting of occupancy, led to the discussion.

Alderman E. A. Titchmarsh said he felt it was up to the parks board to take cognizance of the situation, but he also was of the opinion that with many private parties showing interest, it was possible that the situation might rectify itself.

Alderman J. G. Harris suggested council should meet with the parks board in an attempt to reach decision on the question of carrying on. "If we could get private interests to take over it might be advisable for the city to get out of the trailer camp business and use the area for parks," Alderman Harris said.

Mayor Oscar Matson didn't see how council could be expected to put up a large amount of money in view of the almost nominal rental charged the operators of the trailer camp.

It was finally agreed that a meeting would be arranged with the parks board when the matter

of the city trailer camp would be fully discussed.

Sports Retorts

BY JOHN YEOMANS

TODAY'S THE BIG DAY!! Yes sir, that box-like structure down south Main street way will be really hopping when this issue of the Herald hits the newsstands. If you happen to wander by said structure this afternoon or evening and hear a noise like lions roaring, don't think you've been tele-transported to darkest Africa — or the zoo — or Vancouver. All that's happening is a bunch of slap-happy guys sliding 40-pound hunks of granite (with handles on 'em) down sheets of ice.

Aye, it's curlin', mon... the roarin' game is here at last. Imported direct from Scotland, the game is now thriving here in the land of maple leaves, hockey and mounties as bountifully as it ever did in the land of the heather, lochs and bagpipes — the bonnie land across the sea. And here it is, come at last to the southern tip of lake Okanagan... a long, long way from Loch Lomond.

Things got under way at two o'clock this afternoon, with, we understand, Mayor Matson doing the honors by sliding the first hunk of rock down the ice. Two or three stories in recent issues of the Herald have dealt with the planned opening ceremonies, so we won't go into that.

Right now, though, Retorts wants to doff its hat with an extra fancy flourish to the men who made curling — and the rink — possibly in this city, particularly to the executive of the Granite Club, who have really been doing a whale of a job at getting those rocks sliding.

Incidentally, it's Open House at the curling arena... We gathered from this, when we first heard about it, that the whole of Pentiction is invited down to see the goings on. 'T would be a bonnie brawl if everybody took the Granite Club up on this... Nevertheless, that's how it is. Pop down to the new curling arena (just by Main and Carmi) and have a look-see at our latest community endeavor. You'll be as welcome as the haggis on Rabble Burns' birthday.

KNICKKNACKS — See where we're going to get a rousing ice show here December 15 and 16, afternoon and evenings shows on the Wednesday, and an evening show on the Thursday. Apparently the individual numbers will range from variations on late song hits to interpretations of Red Riding Hood and other children's stories. Real family treat, this Canadian Ice Fantasy of '55. Good stuff...

Sort of ties in with the Pentiction Glengary Skating Club's own ice show, to be held here some time around the middle of February. The two groups aren't related at all, of course, the Fantasies being a touring professional company... Was speaking to the Koonts sisters the other day — the local instructresses, and they tell me that Pentiction's two top skaters, Odella Kent and Jimmy Corrigan, who placed second in the Okanagan-Mainline championship last March, will be competing in the Western Canadian figure-skating championship at Trail later this winter.

MORE KNICKKNACKS — Met a real hockey great up in the gondola at the arena last Friday — Neil Colville, he of the New York Rangers of the old days when it was a disgrace to end up out of the play-offs — one of the reasons he came through this way was to see an old team-mate, guy by the name of Alex Shibicky — He claims that his visit has nothing to do with hockey; strictly business (the ice cream business, as a matter of fact) — When this writer talked with him the Vees were leading Shibicky's Packers 5-1. Asked what he thought of the Vees, he answered: "Very good, very good"; when it was suggested that the Packers weren't quite so good, he gave his reason: "The reason they aren't scoring goals," he said, "is because they aren't at the Vees' end of the ice enough" — He was serious too.

The very next day the Packers dumped the Vees, as you will remember. Guess they took Neil's criticism to heart.

Members of the Granite Club executive make up the rink representing Pentiction at the curling arena's opening day bonspiel.

Hockey

Okanagan Senior Amateur Hockey League
FRIDAY
Dec. 10 - 8 p.m.
Memorial Arena

Vernon Canadians
versus
Pentiction Vees

Hockey tickets go on sale at 9 a.m., the day before a game at Cliff Greyells, 384 Main St. Hours 9-11 a.m. and 12:30-5:30 p.m. Wed. 9 to 12 noon. Telephone 4118.

"COME ON SLOWPOKE—CURL IN THERE!" Mrs. Bill Carse and an unidentified sweeper pour on the broom action to bring a dubious draw shot into the house and her intent expression seems to indicate this game is strictly business. Husband Bill, former coach of the Pentiction Vees, appears to be putting the brakes on this rock, judging from the angle his foot is cocked, but like any good rink skip "you don't say anything and just hope for the best." Although local curlers have made good use of the new Pentiction Granite Club for the past number of days, the official opening of the premises took place this afternoon at two o'clock and the first bonspiel, with well known rinks from several B.C. points competing, is now under way. This afternoon and evening are open house at the curling rink and a big turnout is expected to be on hand to watch the game that has taken Pentiction by storm.

Bill Warwick Scoring At Goal-Per-Game Clip With OSAHL At Half-Way Mark

With the OSAHL season now approximately half gone, a couple of Pentiction Vees players appear to be heading for the top individual scoring honors in the league. Bill Warwick tops the lot with 39 points. His goals — collected in the same number of games — have been scored at a faster clip than his output last year, when he set an all-time OSAHL record of 50 goals in one season.

Two points behind big Bill is line-mate Jack MacDonald on his way to another good season. Jack is way out in front in the assists department. His output of 23 is 11 better than his nearest rival.

Ivan McLelland continues with the best goalies' average in the league with 3.40, closely followed by Kamloops' Rodzinyak with 3.45.

Besides being top scorer and top pointgetter in the league, Bill Warwick also leads in the "bad man" department with 97 minutes in the sin bin (second is Kamloops' Creighton with 61); in most game-winning goals, with four; and in most hat-tricks, with four.

Pen Hi Lakettes Out To Extend Cage Win Streak

Pentiction High School Senior "B" boys basketball team plays its first exhibition basketball game of the season this Friday when they travel to Keremeos to take on the Similkameen High School crew. Also making the trip will be the ever-improving Pen Hi Lakettes.

The boys game should be a thriller from start to finish if previous games are any indication. Both of these squads have defeated the Princeton squads by nearly identical scores.

The Lakettes, after playing seven games, have a 3-4 won-lost record and will be out to even things up this Friday. They will also be out to increase their winning streak to three games as they have beaten Kelowna and Princeton in their last two starts.

Girls game time is 7:30, and boys 8:30. The teams will be accompanied by a bus load of enthusiastic spectators and cheer leaders.

Bantam Canucks Keep Unbeaten Record Intact

Canadians' winning ways in the Bantam hockey loop continued unchecked, last weekend as they blanked the unhappy Maple Leafs 6-0 with Ewing and Lund each netting a pair of tallies in the process.

Overshadowing this game, however, was the shelling handed Rod Wings by the Bruins, who appear to be coming to life. Bruins won 7-0, after leading 2-0 going into the last period. Spauld tallied twice in this one, while Zibin collected three points via assists.

Rangers downed Black Hawks 3-1 in the third Bantam league tilt. Over in the Midget league, Rotary was kept busy keeping its own unbeaten record intact, as the Legion crew came to life in the last period to tie the game two-all, only to have Rotary's Eyre come back and send his team to a tight 3-2 victory.

In the other Midget game, Flyers whipped Highballers 3-1. Canadians 6, Maple Leafs 0. First period — 1, Canadians, Ewing (unassisted) 13:30. Penalty, Kelly.

Second period — 2, Canadians, Ewing (Stovenson) 10:00, 3, Canadians, Cox (Gordon, Hale) 16:00. Penalties, Kelly, Parker.

Third period — 4, Canadians, Harder (Hale) 3:30, 5, Canadians, Lund (unassisted) 4:25, 6, Canadians, Lund (unassisted) 5:15. Rangers 3, Black Hawks 1. First period — 1, Black Hawks, Roadhouse (Wish, Allcott) 12:45. Penalty, Ardles.

Second period — 2, Rangers, Skirmer (Benolt, Warwick) 16:00. Bruins 7, Red Wings 0. First period — 1, Bruins, Hill (Zibin) 6:30. Penalties, Strain, Blagot.

Second period — 2, Bruins, Sylvestre (unassisted) 13:00. Penalty, Blagot.

Local Soccer XI Sits Out Winter Nursing Seven-Point Lead In OSL

When the Okanagan Soccer League resumes activity in the spring, the Pentiction XI will be nursing a healthy seven point lead built up during the first half season — which came to an end week-end before last with Kamloops blanking Armstrong 2-0. In their ten league games the local squad chalked up an amazing nine victories and one tie, or 19 points out of a possible total of 20. Also, they scored a total of 45 goals, while allow but six to be tallied against them.

The other league teams are all expected to improve, particularly the weaker sisters of the OSL, Kamloops and Vernon. Until their last three games these two together had won but one.

They started to catch fire right at the end, however, Vernon winning and tying in their last two league tilts, and Kamloops winning a pair (both via shutouts) and tying one in their last three.

Should the Pentictionites continue playing the excellent brand of soccer they have displayed this fall chances are they will end up the first winners of the new Pentiction Dray and Express trophy, donated earlier in the year to be presented annually to the Okanagan soccer champion.

Following are the Okanagan Soccer League standings going into the second half of the season next spring:

	P	W	L	T	PT	GF	GA
PENTICTON	10	9	0	1	19	45	6
KELOWNA HOTSPURS	10	5	3	2	12	31	18

KAMLOOPS	10	3	6	1	7	15	53
VERNON	10	1	8	1	3	11	53

Pentiction Athletic Club Meeting Tomorrow To Plan For Boxing Gym

It begins to look as if the newly formed Pentiction Athletic Club will soon be a well established part of the Pentiction sporting and community life, judging by latest reports issued by club officials. John McKee, one of the original organizers of the group, says that last Monday's meeting was a success in every respect. Another meeting has been called for tomorrow, when many plans for club activity and organization will be finalized.

Tomorrow's meeting will be held in the Pentiction Agencies office at the Central building on Nanaimo avenue, starting at 7 p.m. A working party to fix the club gymnasium over Bassett's Transfer will be chosen.

Also, a participant members' representative must be elected from among the members themselves, and the meeting will also make arrangements for a fund-raising campaign in order to buy sporting equipment.

Though the Athletic Club is concentrating on boxing right now, future plans involve a wide assortment of activities. Outdoor sports will be on the agenda soon, in preparation for the end of the winter season.

A change in the club executive was made necessary when Cece Brett, owner of the sports shop on Main street, announced his intention of leaving Pentiction. Brett will be replaced on the committee by Bob McMillan.

Summerl'd Gagers Win Three Of Four At Kelowna Meet

SUMMERLAND — Summerland high school basketballs had quite a field day in Kelowna on Friday evening. Games were played simultaneously in two gyms. The junior girls won 24-16, high scorers being Anna Adamske, 8; and Nan Solly, 6. The Summerland junior boys won 23-15.

Top pointgetters were John Menu and Carlton Sheeley, who each got 6. The senior girls won 36-20, Sheila Bennisson scoring 10, Pearl Hooker 9, and Carol Cornish 8. Only losers were the senior boys, with a score in the exciting game, Kelowna 57, Summerland 48. In this game Alan Davis accounted for 16 points; Don Gilbert 11; and Ron Lawley 10.

Merchants In First CHL Loss; Edged 3-2 By BCD's

The mighty Merchants of the Commercial Hockey League finally bit the dust last Sunday, and it was the scrappy BCD's Juvenile team that did the trick, roaring from behind to squeeze a spine tingling 3-2 decision from the unbeaten league leaders. Tooley was the big hero in this one, potting the winner at 11:12 of the final period after Burch had tallied BCD's first two goals.

The game was a thriller from start to finish, and featured clean hockey throughout. Two penalties were dished out, one minor to each team.

Merchants' high-scoring Doug Moore opened the scoring at the two minute mark of the first period on a pass from White. Burch evened the score at 10:35 on a fine pass from Tooley.

The teams split another pair in the sandwich frame, John from Tyk and Getz scoring seconds after the opening whistle, with Burch

coming through again for the BCD's at the 11:45 mark, Gates getting the assist. The last period featured some good, fast hockey, with nary a penalty. Tooley finally cracked through with his goal at 11:12, scoring unassisted. He let fly from close in, and as Merchants' goalie Don Moog moved over to block the puck, it hit a defence-man's stick and careened into the open side of the net. That was the game.

The other Commercial league tilt was equally tight and hard-fought, Garagemen and Summerland battling to a three-all tie.

Summerland's Seigrist started things off by banging in Eyre's pass at 6:00 of the initial frame, followed six minutes later by team-mate Furuya's unassisted tally.

Last place Garagemen got back into the fight when Bird scored at 13:00, O'Brien getting the assist, and the period ended with the Summerlanders ahead by one goal. Holloway tied it all up early in the middle period, Bird getting the assist, and then Corrigan put the Garagemen ahead at 12:15 with a neat goal engineered by Harris and Samos.

Summerland drove hard for the equalizer, but didn't manage anything until 2:15 of the last frame when Taylor scored unassisted. There was no more scoring, despite several chances for both squads.

At the opening day ceremonies of Penticton's new curling arena there are representative rinks from Grand Forks, Trail, Osoyoos, Oliver, Princeton, Summerland, Peachland, Kelowna, Vernon, Kamloops and Vancouver.

Packers' Hoskins, Pyevach Released; Amundrud Recalled

KELOWNA — In an attempt to cut down expenses, Kelowna Packers' player committee over the weekend decided to release Frank Hoskins and Nick Pyevach from the local senior hockey roster.

Hoskins was one of the few Packer originals, seeing action with the team since 1948. The high flying forward won the most valuable player award for Kelowna in the 1949-50 season. Hoskins played junior with the Winnipeg Monarchs before moving to the Orchard City.

Pyevach came here several weeks ago, but when the "economy move" was made by the Packer executive, he also came under the axe.

Release of Hoskins, leaves only one Packer original, Jim Hanson. Amundrud was released last week, but was taken back again after reconsideration.

Shoulder Injury Rates Operation For Elks' McCully

Bill McCully, last season with Kelowna Packers and this season with Kamloops Elks, recently underwent a successful operation on a shoulder separation injury which he received two weeks ago in a game against Vernon Canadians.

It was his second injury of the season. The first, a twisted knee, was also sustained against Vernon, in Kamloops' third home game.

Arena Schedule

Dec. 8 — 4 to 6 p.m., figure skating; 6 to 7:30 p.m., midge hockey practice; 8 to 10 p.m., figure skating; 10 to 11 p.m., commercial hockey practice.

Dec. 9 — 10 to 11 a.m., Peach Buds hockey; 3 to 5:30 p.m., children's skating; 6 to 7:30 p.m., senior hockey practice; 8 to 10 p.m., adults only skating; 10 to 11 p.m., commercial hockey practice.

Dec. 10 — 8 p.m., Vernon vs. Penticton Vees.

Vees Tackle Tough Elks At Kamloops In Tonight's Tilt

The Penticton Vees travel to Kamloops tonight to meet the rugged Kamloops Elks. Grant Warwick and his boys hope to maintain their slight edge over the mainliners in games played this season. So far the Vees have won five, the Elks four and one game ended in a tie in the two squads' ten meetings.

While the Elks are expected to have several changes in their lineup, the Vees are virtually the same team as appeared here Friday against the Packers. Kassian is expected to be back in strip after his bout with the flu, and the Vees will probably ice their full roster of 17 players against the third place Elks.

Next home game for the Vees is this Friday when the ever-dominant Vernon Canadians come to town to open a home-and-home series with the Allan Cup champions.

Penalties And Points Seem To Go Hand-In-Hand With OSAHL Squads

This weekend the Okanagan Senior Amateur Hockey League will pass the half-way mark of the 1954-55 season. Kamloops Elks have already played more than half their 54 league games — The other three teams are within one or two games of this mark.

Latest statistics released by league statistician R. Giordano of Kelowna show that at this half-way mark the position of the four teams in the league standings is almost in direct proportion to the number of penalties dished out to each so far.

Following are the latest league standings showing — number of games played, points, penalties in minutes, major penalties, misconducts and game misconducts:

	GP	PTS	PIM	MAJ	MIS	GM
PENTICTON VEES	26	34	458	6	17	3
VERNON CANADIANS	25	25	336	10	7	3
KAMLOOPS ELKS	28	25	271	5	5	0
KELOWNA PACKERS	25	20	234	6	3	0

Penticton's Mayor Oscar Matson curled the first rock at the opening ceremonies of the new curling arena today, and officially declared the arena open.

PENTICTON DRAY & EXPRESS

bring you these reflections of the past in the days while they were busy "Growing with Penticton"

If you have pictures of the old days in Penticton bring them to the Herald. We would be glad to use them for this series.

In 1922—

Early in the century, hardy workers were toiling to build this Kettle Valley bridge, just behind the present site of the Government Experimental Farm at West Summerland. Communications and transportation in those day were a real problem. At about the same time the Penticton Dray and Express were also building a firm foundation — they were starting to build their fine reputation for the years to come. They, too, were in the transportation field, they, too, have built a lasting structure.

Today 1954 Penticton Dray & Express are still providing a necessary service to the area; on the firm foundation built so many years ago, they are still building a growing business in hauling, sand and gravel, and quality fuels. Their foundation is today, as always, a reputation for the best service in their hauling business and the highest quality fuels at competitive prices.

THAT'S A NARROW PORT, MISTER — you'll have to be right on the broom and draw to within a whisker. Bill Johnson and his third man ponder the route for a close shot in this candid photo taken recently at the Penticton Granite Club which officially was opened this afternoon at two o'clock by Mayor Oscar Matson. The mayor sent a rock skimming across the ice to officially mark the long awaited moment. Play is now in progress in the club's first 'spiel' with rinks from many valley points represented. The curling rink will be the centre of interest for Penticton and district sportsmen this evening as the celebration moves into its final stages.

Mayor Hurls First Rock To Open New Curling Rink

Some Of Province's Best Curlers Watch Opening Ceremonies

A short time after two o'clock today Mayor Oscar Matson heaved a heavy gleaming piece of granite down the ice at Penticton's new curling arena on south Main street, while a distinguished group of curlers from all parts of the province — plus a mixed crowd of onlookers, both interested and plain curious — watched in silence . . . The rock ended its slide — Penticton Curling arena was officially opened.

The history-making event came as a climax to a long wait and a great deal of time and energy spent by curling enthusiasts of this city. Particularly praiseworthy are the executive of the Granite Club, who, at the time of publication of the Herald are representing Penticton in the curling jamboree in progress at the new arena.

Just prior to Mayor Matson's curling of the first rock this afternoon, master of ceremonies Maurice Finnerty introduced club President Jack McKay to the gathering. Mr. McKay welcomed the visiting curlers and thanked everybody for helping to make the opening

ceremonies a success.

Following a few words from Mrs. Harry Hines, President of the Ladies' Curling club, Mr. Finnerty introduced Cl Glover, of Kamloops, President of the B.C. Curling Association. Mr. Glover was most enthusiastic about the entry of Penticton into Canada's curling fraternity.

Some special guests were then presented to the gathering, to be followed by a few

Former Briar Cup Competitor Heads Vancouver Rink

Among the many noted guests at today's official opening of the curling arena in Penticton is Fred Tinning, well known curler and many times part of the B.C. representative rink at the Dominion curling championships.

Mr. Tinning was skip of the rink that won the curling tournament held in conjunction with the British Empire Games at Vancouver. He is skipping a representative Vancouver rink here today.

Among the other guests is Nick Marsh, president of the Kamloops curling club, and skipper of that city's rink here. Also a visitor is Dolph Brown, of Vernon, past president of the B.C. Curling Association.

One of the honored guests in Penticton is Donald McDonald, a well known name in B.C. curling circles. Mr. McDonald is the donor of the visitors' event McDonald trophy of the Trail bonspiel.

words from Donald McDonald, well known curling figure from Trail. Mr. McDonald spoke on behalf of the guests of the Granite Club.

Soon after Mayor Matson curled the first rock to officially open the arena, guests and visitors got down to the serious business of curling. It isn't a bonspiel so much as an invitational jamboree. At press time they are still hard at it . . . and, it is understood, they will continue hard at it for several hours to come.

Tourist Court For Evans' Point

SUMMERLAND — W. E. Evans has sold his orchard property west of Giant's Head to Mrs. D. P. Pielou. He will erect a second house and cabins at Evans' Point where he plans to operate a tourist court.

Evans' Point is a beautiful little spot on Okanagan Lake just where the new highway turns to go up the hill, and should be an ideal location for a tourist resort.

The year 1953 saw oil emerge as Canada's most important mineral in value terms, accounting for 15 percent of over-all mineral production.

Another Dalrymple Contract Completed In Penticton

There's a lot of pleasure in a job well done . . . every phase of the construction of Penticton's fine Curling Rink was under the supervision of Jack Dalrymple and his expert construction staff. Here Mr. Dalrymple is shown at the front entrance of the new structure. The contract was awarded by the Penticton Granite Club to

DALRYMPLE CONSTRUCTION CO. LTD.

You'll view the Rink in Comfort through TWIN SEAL INSULATING WINDOWS

Curling "behind the glass" is more enjoyable than ever — thanks to Twin Seal Window's no-draft comfort and no "fogging" viewing ease. The Penticton Granite Club is the first curling club in B.C. to install modern Twin Seal. Twin Seal Glass Co. Ltd. congratulates the Club Executive and its committees for their imagination and resourcefulness in achieving a Curling Club that will be a source of community pride for years.

LET TWIN SEAL SAVE YOU MONEY AT HOME

CUT FUEL BILLS

The dry "dead" air space between the panes is a natural insulator. Heat stays in — cold stays out. Twin Seal windows will pay for themselves in the money you save on fuel.

STOP DRAFTS

Precision construction of Twin Seal ends draftiness. Every square foot of floor space can now be used — right up to the windows.

END STORM WINDOW ANNOYANCE

When you install Twin Seal you have no storm sash to buy, paint, wash, hang or store.

Made in
B.C.

- Costs less than other leading brands
- Easily installed in wood or metal frames like ordinary glass

- Custom made in special sizes at NO EXTRA COST
- Backed by a 5 year product warranty that guarantees complete satisfaction

When you're building or remodelling, ask your architect or contractor about Twin Seal. Or contact one of these leading Penticton firms.

WADE AVE. — PENTICTON, B.C.

School Board Chairman Frank Eraut Calls For Referendum Support

Call for support when voters cast ballots Saturday on the school referendum was made by P. F. Eraut, school board chairman, when he addressed the annual stewardship meeting in the school cafeteria last night.

Birth rate figures in Penticton are slightly above the national average, Mr. Eraut stated, and it was obvious that two to four classrooms would have to be provided each year, for several years, just to keep even with the increase.

SCHOOL REFERENDUM

The referendum seeks permission for the board to borrow up to \$115,000 during the next two years to construct an eight room elementary school on Power street.

"As trustees for school affairs we have tried to think both in terms of cost to you as well as the educational well being of our children," Mr. Eraut declared.

His remarks to the stewardship meeting follow:

Quite obviously with the length of time at my disposal this report cannot reflect the amount of work done, or the time spent in the year's operations by your Board of School Trustees. Since "Education is every one's business" it should be of interest to everyone, parents and non-parents alike, to hear a few of the details of school administration during the past year.

CLASSROOMS NEEDED

One of the problems that has plagued this board, and, indeed, school boards all across Canada, has been the provision of enough classrooms for the ever increasing numbers attending school. Early in the year your board made a survey of the requirements for additional accommodation and it was disturbing. It was apparent that we would have to find from two to four classrooms a year for several years just to keep even with the increase. We examined the school enrolments and saw the steady increase from 1,400 in 1944 to 2,600 in 1954.

We examined the birth rate figures and realized that the increase is a continuing one. An average of 400 births takes place annually in Penticton and 68 percent are to Penticton residents. Incidentally, this is slightly above the national average and far above the birth rate of the 1930's.

Early in the year, too, Mr. Walker of Graham and Walker, town planning experts employed by the City Council, visited the board and made his recommendations regarding school locations. At first his recommendations of the Power street site were disappointing to the board and every other possible site was examined. For example, the King's Park and Golf Course site were considered and discarded for several reasons. (1) It is several blocks closer to the existing schools and, therefore, not in the centre of the population to be served. (2) The area west of this proposed site is zoned as industrial and would be populated only on the one side. (3) The Parks Board was not in favor of allowing the school any park property. The Queen's Park site was also examined and for several reasons was found unsuitable. The area west on Westminster was examined and also found unsuitable.

SITE CHOSEN

Finally, the board came to the conclusion that the Power street site was the "best available". It is the centre of a population of 2,700 or approximately 300 pupils in grades one to six. It is across the street from one of the largest parks in the city. It is also across from our very fine Memorial Arena. It is at least one block from arterial highways. The site was recommended by the town planning engineer, it was very critically examined by your school board before making a decision — it was also examined by government officials who accepted the location and agreed to pay half the cost. We have now advanced to the stage where we are preparing plans for 8 classrooms and an activity room for this area. This, we hope, will remove four classes from basement rooms and provide for the annual anticipated increase of approximately 140 pupils.

During the past year an addition of two classrooms was added to the Carmi school out of current revenue at a very low cost unit. Notwithstanding this addition, another basement room had to be opened to provide for the 156 extra pupils. While these basement rooms are made as attractive as possible they are not well lighted, well ventilated or properly heated. They should be looked on as an expedient only and not a permanent residence for our pupils. The maintenance and repair work has been in the capable hands of J. Griffiths and his staff. The results of their work are a credit to them. All our buildings have been kept in excellent repair and all equipment has been kept in working order.

LAUDS STAFF

This has been a year of fine cooperation from our principals and teaching staff. Your board is proud of the success of our high school pupils. As a result of government examinations far more than our share of scholarships came to Penticton and the 92 percent who passed is well

above the provincial average.

Night school, under the able direction of J. Y. Halcrow, has increased both in the number of pupils and in the number of courses. We consider our night school to be one of the best in the whole of British Columbia. It adds a great deal to our community, both in the vocational field as well as the recreational field with practically no cost to the taxpayer except for the use of buildings and equipment.

The Jubilee Convention of the British Columbia School Trustees' Association was held in Penticton at the end of September. Not only was it the largest ever held but many delegates told us it was the most successful. Your board felt that the 400 delegates and guests who attended the convention left with a good word for our city. While several of your trustees worked hard on this convention they did have the satisfaction of a job well done.

I would be neglectful if I failed to thank our able school inspector, E. E. Hyndman. His cooperation has been very helpful and his advice has assisted us in many ways. I wish also to take this opportunity of personally thanking him. I wish, also, to say a word or two of appreciation for the members of the board who have served so well during the year.

Mrs. R. Burch, as chairman of the cafeteria, has maintained a high level of efficiency in this department. Both she and the cafeteria staff deserve credit for the work they are doing. They have maintained an excellent meal at a low rate and without cost to the taxpayers. Mrs. Burch was in charge of the details of the convention banquet.

Mrs. L. Balla was chairman of the health and library committees. Although this is her first year on the board she has been very active and has not spared herself. She was in charge of the details of the convention tea.

H. Cleland, as chairman of buildings and grounds, carries a considerable responsibility on the board. His duties in this regard as other committees, have required many hours of work. During the convention he was in charge of the building arrangements.

L. Seney was made chairman of finance this year. Since the committee controls the board's budget you can understand the importance of his work. It is a credit to him that the estimates have not been exceeded. I personally appreciate the service he has given.

G. Alington has been chairman of transportation. His experience in board affairs has been very helpful. Oftentimes, when transportation difficulties have arisen, they have been left to his able judgment. He always manages to find the right solution. He has also been chairman of the night school committee. During the convention he was in charge of the entertainment and other details.

P. Workman has also served on several committees. He has done a commendable job and I wish to thank him for his fine cooperation.

The board secretary, Lorne Chambers, has done a fine job and his arrangements for the accommodation of delegates at the jubilee convention displayed marked ability.

BOARD POLICY

During this past year the school board has operated to obtain the most education for your dollars. We tried to keep in mind what was best for the students. As trustees for school affairs we have tried to think both in terms of cost to you as well as the educational well being of our children.

In conclusion, ladies and gentlemen, we ask your support for the referendum on December 11. Surely we cannot fail to provide classroom space for the children of Penticton. By next September we shall have the basements full and three classes at least without a home.

While the referendum is for \$115,000, Penticton's share is only 44 percent or about \$50,000. The rural district and the government provide the balance. Ask your friends to help and let us all get behind this very important project.
